

Storm Data and Unusual Weather Phenomena - November 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

IOWA, Northeast

(IA-Z030) CLAYTON

11/09/11 02:15 CST	5K	Winter Weather
11/09/11 08:30 CST	0	

A light snow event during the morning hours of November 9th created icy roadways. Snowfall amounts ranged from a half inch to around 2.5 inches, but this was enough to create dangerous driving conditions which resulted in a fatal accident on State Highway 13 four miles west of Edgewood (Clayton County).

MINNESOTA, Southeast

(MN-Z086) DODGE

11/01/11 00:00 CST	0	Drought
11/30/11 23:59 CST	0	

The severe drought conditions that developed across parts of southeast Minnesota in October 2011 continued through November for Dodge County.

(MN-Z094) MOWER

11/15/11 06:00 CST	0	Drought
11/30/11 23:59 CST	0	

Persistent below normal precipitation since May 2011, allowed severe drought conditions to expand across portions of southeast Minnesota. The drought area expanded into parts of Mower County.

WISCONSIN, Southwest

(WI-Z042) MONROE, (WI-Z043) JUNEAU

11/09/11 05:38 CST	0	Winter Storm
11/09/11 14:30 CST	0	

Low pressure pushed into the Great Lakes region and spread a band of heavy snow over parts of central Wisconsin in the morning hours of November 9th. Volunteer snowfall observers estimated 6.5 inches near Wilton (Monroe County) and 8 inches near Mauston (Juneau County). There were many accidents across much of southwest into central Wisconsin, especially since the bulk of the snow fell during the morning commute time.
